

Press Release

Jowapur® 683.13 also offers all positive characteristics which are to be expected for this family of products - the 1K PUR prepolymers: easy handling, quick setting when exposed to heat, exhibiting high strength and free of solvents. Beyond this, it also meets the durability group D4 of the EN 204/205 and reaches heat resistance levels according to the Watt 91 >7 N/mm².

When getting down to the core, meet the all-rounder with special talent for the manufacture of sandwich elements: Jowapur® 683.13.

Introducing Jowat

<p>The Jowat AG with headquarters in Detmold is one of the leading suppliers of industrial adhesives. These are mainly used in woodworking and furniture manufacture, in the paper and packaging industry, the textile industry, the graphic arts, and the automotive industry. The company was founded in 1919 and has manufacturing sites in Germany in Detmold and Zeitz, plus three other producing subsidiaries, the Jowat Corporation in the USA, the Swiss Casanin AG, and the Jowat Manufacturing in Malaysia. The supplier of all adhesive groups is manufacturing over 70,000 tons of adhesives per year, with around 650 employees. A global sales structure with 15 Jowat sales organisations plus partner companies is guaranteeing local service with close customer contact.</p>
